The Congress ADF or ADF Annual Dental Meeting is the premier European event in terms of continuing professional education for dentists. One of its great strengths is to combine in one single venue a five-day scientific programme, including over one

hundred sessions and 600 speakers, with a four-day international exhibition.

The ADF Conference is not only a scientific landmark; it also provides all members of the dental team with practical solutions to the challenges they face in their day-to-day environment. It endeavours to meet all needs and to be attentive to dentists' expectations and demands, and is built around daily practice and a holistic approach to patient care.
