

设备内部排污管 固纤 全碳包碳定制

产品名称	设备内部排污管 固纤 全碳包碳定制
公司名称	上海固纤新材料科技有限公司
价格	185.00/件
规格参数	产商:固纤 规格:全碳包碳定制 产品用途:设备内部排污管耐腐蚀
公司地址	上海市闵行区元江路5500号第1幢882室
联系电话	13661937267

产品详情

产商 固纤 规格 全碳包碳定制
产品用途 设备内部排污管 耐腐蚀

设备内部排污管

carbon cylinder of portable type foam fire extinguisher & blow-off pipe within equipment

由于碳纤维复合材料的自身属性所限，其很少被用作压力容器，仅可作为外部包缠加固结构。但是对于内部压力（尤其是流体的内压）要求较小的产品而言，则可适当应用碳纤维材料来改善其性能。

because of its own properties limitations, carbon fiber composite is seldom used as pressure container, and it can only be used as an external wrapped reinforcement structure. but for some products which don't need a high internal pressure requirement (especially fluid pressure), carbon fiber materials may be appropriate to improve its performance.

一些设备内部的液体排污管也可用碳纤维管来代替。相较于传统的金属材质，碳纤维的耐腐蚀性更好，抗疲劳性能更优异，因而可使产品寿命大大延长。

some liquid sewage pipes inside the devices can also be replaced by carbon fiber tube. compared to traditional metal materials, the corrosion resistance and anti-fatigue property of carbon fiber is more excellent, so that it can significantly extend the life of the product.
