With the cancellation of Expo West 2020, we are hyper-focused on making Expo East 2020 the biggest, most important event for our industry this year, but in the meantime we want to do everything we can to move our industry forward.

To that end, we have a number of free opportunities for our exhibitors to promote their products, tell their stories, and to get in front the industry's most important retail buyers. We have opened up new features to all Expo West Exhibitors, and will be promoting this information to our entire Attendee audience between now and Expo East.
