For the disposal of kitchen waste, the conference center starts from "reduction". Many posters have been posted on the walls of the restaurant to advocate the practice of "CD action". Mr. Liu said the restaurant also makes full use of raw materials, processing leftover food scraps and semi-finished products to reduce food waste. For example, the original thrown away broccoli root, peeled and pickled into a side dish; The soybean dregs produced in the production of soybean milk are put into flour, milk and other deep processing to make into delicious steamed buns. After practice, these are deeply loved by customers.
