领事认证的概念

领事认证（LEGALIZATION BY EMBASSY OR CONSULATE），又称“使领馆认证”。从广义上来说，领事认证是指由外交、领事机构证明申请人所提交的文件上后一个签字或印章属实，从而使该文件具有境外使用的法律效力。

在我国出口贸易中，许多国家和地区对我国的出口企业所提供的涉外商业单据和文件，要求经该外国驻华使领馆认证，方可在进口时办-理通关结汇手续。

北京使馆认证时间,接受全国任何省市民商事文件的认证。

The government work report explicitly said that the two "1 trillion yuan" will be transferred to local governments. The special bonds are mainly used for local public health and other infrastructure construction and anti-epidemic expenditure. The budget is still adding to the input to people's livelihood.

By 2020, the central government is expected to allocate 53.9 billion yuan in employment subsidies. Transfer payments to local governments for education were increased across the board. Subsidies for compulsory education in urban and rural areas increased by 8.3 percent, and funding for the development of preschool education increased by 11.8 percent.

In terms of health, we will increase per capita government subsidies for medical insurance for residents by 30 yuan, and per capita government subsidies for basic public health services by 5 yuan. All new government subsidies for basic public health services will go to urban and rural communities.

"Money bag" tight, how to pinch pennies? Central government departments have taken the lead in tightening their belts. This year, central government spending at the same level will fall by 0.2%, of which non-urgent and non-rigid expenditures will be cut by more than 50%. "Reduction" also refers to benefiting enterprises and the people, and reducing taxes and fees. According to the budget report, more than 2.5 trillion yuan is expected to be added to businesses this year.
