【其他介绍】

Schniewindt was founded in 1829 in Westphalia and is a performance-based, independent family business.

Since the invention of the “ Schniewindt grid ” in 1902 we have manufactured electric high-voltage resistors and are thus one of the leading suppliers of electrical equipment for energy distribution.

Through the use of advanced process technologies we continuously develop our products according to the needs of our customers. With our global partnerships, we are among the manufacturers of high performance electrical resistors and of equipment and systems for electrical heating equipment for industrial and commercial purposes.
