

柔顺剂POE 8880美国埃克森美孚

产品名称	柔顺剂POE 8880美国埃克森美孚
公司名称	东莞市华韵塑胶原料有限公司
价格	62.00/kg
规格参数	品牌:增韧母粒 型号:柔顺母粒 产地:美国埃克森美孚
公司地址	东莞市樟木头镇奥园塑金国际8栋214
联系电话	0769-87600377 13556776933

产品详情

柔顺剂POE 8880美国埃克森美孚

Application: The hot melt adhesive made of Verdamet Polymer has excellent performance, which can promote the innovation, increment and growth of the product. The blend of weida-based acrylics introduces a new solution for processors and blending manufacturers to enhance the performance of polyolefin blends and multilayer structures. The film-based vdma-based elastomers open up new possibilities for a wide range of packaging, industrial, sanitary and architectural applications. NONWOVENS Weida Acrylic elastomers bring new possibilities for Weaving and nonwovens applications, which can improve performance, simplify structure and achieve greater design freedom. Exxonmobil-Ouidah series propylene-based elastomer Poe offers new opportunities for blending, film and nonwovens applications, increasing production efficiency and reducing overall system costs. At the heart of these innovations is the wedamene-based elastomer, which can be added to polypropylene blends or polyethylene film formulations, giving the opportunity to customize, improve and balance the combination of properties.

供应POE 美国杜邦1450 8150 8200 8440 8999

供应POE 日本杜邦DP2100

供应POE 新加坡三井化学A4085S DF640 DF840 DF110 DF610 DF710 DF740 DF810 DF840 DF940 XM7070

供应POE 日本三井化学 DF610 DF640 DF710 DF740 DF810 DF840 DF940 P5050N

供应POE 西班牙陶氏2300 3200 3401 8150 8200 DE2300

POE美国埃克森美孚（中国）总代理商，POE美国埃克森美孚塑胶颗粒长期供应——报价

生产厂商：埃克森美孚公司

供应POE美国埃克森美孚VM3020

POE(聚烯烃弹性体#聚乙烯辛烯共弹性体)/埃克森美孚

用途：增韧;适用于制备流延膜、纤维和改性聚烯烃(包括TPO)，应用范围宽:从汽车内饰件，外饰件到无纺布、包装、个人卫生用品和电线电缆等。 -
