babolat pd(pure drive)是有史以来最成功最畅销的网球拍，其适中的重量和硬度，近乎完美的框型设

计，使相邻网线能互动的woofer线槽设计，令此款球拍风靡全球，受到从职业选手到初学者的一致喜爱和推崇，良好的口碑造就了近十年的畅销。2007年更是引入革命性的内嵌式cortex缓震系统，提出“过滤有害震动，保留有益震动手感”的全新概念，精益求精，更进一步追求完美。此款是水平4.0选手迈向更高层次的不二选择。

racquet that revolutionized player's racquets is now updated with babolat's cortex technology. located just above the handle, cortex is designed to reduce harmful racquet vibrations without filtering out the feedback required for feel. the result of filtering unnecessary vibrations is what babolat calls a "pure feel." on court the racquet plays just like the pure drive team standard, yet offers a more solid and comfortable feel at impact. the racquet is light enough to generate good racquet head speed, yet still offers above average stability and excellent comfort from the baseline. just like the pure drive team standard, this one is an excellent match for aggressive players who like to hit with lots of spin and pace. included is a babolat grommet technology called the woofer system - designed to cushion the impact of the ball on the strings, making for a comfortable feel over a wider impact area. offering excellent performance from all areas of the court, there's no wonder why the pure drive racquets have gained a huge following. this one is a solid choice for 4.0 players all the way up to the pro tour ranks.
