联系电话	13524300592

产品详情

ChinaTrailers, Who is a leading manufacturer of road transportation vehicle and hydraulic cylinder in China.

Based on constant efforts and pursue for more than 20 years, we focuses on the developing and manufacturing of modular vehicles, paying close attention to the technical renovation, the active introduction of advanced technology from foreign countries and constant development of new products.

Safety Management System

Staffs Security (The most IMPORTANT. Make sure our staffs is safe when building trailers)

Quality Inspection (approval ISO 9001 and inspect every stage of production)

Best Sellers

Hydraulic modular trailer (Goldhofer THP/SL; Nicolas MDED; Scheuerle model)

Self-Propelled Modular Transporter (SPMT)

Wind blade trailer (55 meters wind blade trailer)

Lowbed trailer (3 Axles 80 tons lowbed trailer etc.)

Main Features

1. Torsion - resistance of side beam and Main Beam are with "1" high strength steel. more durable than normal trailer steel to ensure low bed trailer driving stability and handle bed roads.
2. Heavy duty type ramp: manganese plate butt welding, This design that ensure the ramp support the heavy duty machine safely.
3. Stability when loading heavy duty machine. Our low bed trailer can equipped with extra legs on the rear of trailer. This will enable you to load machines safely

According to clients' requirements, we can customize different axles and loading weight.

The popular lowboy trailer models as follows:

2 axles 40 ton lowbed semi trailer

3 axles 60 ton low bed truck trailer,

3 axles 80 ton low loader trailer

3 axles 100 ton lowbed truck trailer

2 line 4 axles 60 ton lowbed trailer

3 line 6 axles 120 ton low bed trailer

Specification:

Type	Low Bed Semi Trailer
Loading Capacity	40T
Axle	3 Pieces, 13T FUWA/BPW axle
Tyre	12 Pieces, 10.00R20
Dimensions(L*W*H)	13000-18000*3000-3200*1750mm
