产品详情

DP490 is a black, thixotropic, gap filling two component epoxy adhesive with particularly good application characteristics. It is designed for use where toughness and high strength are required. High temperature resistance up to 120oC. High resistance to impact and outstanding stability under static and dynamic loads. Very good strength and aging characteristics. Thixotropic formulation enables easy application to vertical surfaces. It shows special benefits in the construction of composite assemblies. The product has excellent heat and environmental resistance. It is black and is available in Duo-Pak cartridges of 50ml.
