产品详情

1AL Braz-Stop is recommended for general brazing applications and is available as a transfer tape, paste and water based paint.

1YT Braz-Stop is a rare earth composition for use on titanium and reactive base alloys, and is available as a paste, paint, or transfer tape.

All Vitta Braz-Stops clean up easily after brazing with simple brushing, air jetting or washing with water. No grinding or blasting of finished parts is required to remove these Stop-Offs.
