产品详情

SANTOTRAC 2080A Traction Fluid is a low viscosity synthetic hydrocarbon-based traction fluid that is especially designed for applications where low to medium film strength is desired. This product has high coefficient of traction and is fortified with a proprietary additive system to enhance its antiwear and extreme load-carrying and high temperature properties. This product is especially useful in operating environments that require enhanced oxidation stability and increased protection against rust and corrosion. SANTOTRAC 2080A is essentially nontoxic, especially when proper hygienic practices are followed.
