

铁氟龙料 PTFE 美国杜邦 8AX

产品名称	铁氟龙料 PTFE 美国杜邦 8AX
公司名称	上海圆高塑化科技有限公司
价格	225.00/KG
规格参数	品牌:美国杜邦 型号:8AX 产地:美国
公司地址	上海市清浦区练塘镇章练塘路588弄15号
联系电话	15921708758

产品详情

Typical Applications Many end products are fabricated from moldings of Teflon PTFE 8A X, including small parts such as ball valve seats, seals, discs, and lab ware. Thick molded sheets are stock shapes made from Teflon PTFE 8A X. It is also chosen for lining pipes, valves, and valve plugs—and for ducting, expansion bellows, piston rings, and other large complex moldings.

产品说明:

Teflon PTFE 8A X is a free-flowing white powder composed of relatively large particles. It has high bulk density and good powder flow. Its most unique features are improved moldability at lower pressure and improved surface smoothness of finished parts. The high bulk density and low compression ratio of Teflon PTFE 8A X permit the use of shallow molds for small parts and complex shapes.
