### 产品详情

These three anti-seize products all have the same unique inorganic pigments and are designed to be used as an aid for the installation and removal of threaded fasteners which are exposed to temperatures up to 1400 ° F for long periods of time. All three Products are completely inorganic and do not contain any sulfur producing materials, nor any metallics, such as silver or nickel. T8E Paste, T8E-G Light Grease, and T8E-H Grease, are ap
