产品详情

MOLY-AP - metal Assembly Paste is an extreme-pressure lubricant for metal assembly and maintenance. Reduces wear on parts during breaking-in and new-parts assembly.

Features and Benefits:

Low coefficient of friction

Temperature Range: Solids are effective from 0 ° to 750 ° F (-18 ° to 399 ° C); base oil vehicle 0 ° to 250 ° F(-18 ° to 121 ° C).

Applications: Lubricating threaded connections, gears, chains, conveyor tracks, lubricating during metal forming, general parts assembly, press-fitting, cold extrusion, breaking-in of bearings, movable screws, splines, cams, and more.
